## SUMMARY

I am a creative full-stack web developer with a background in Economics and 7 years of experience in Manufacturing. My main goal in the tech industry is to make web apps that help people solve problems

## PROJECTS

### LOCALSHARE

Jan. 2020 to Current

A simple application that allows users to share their pictures and locations. With tech stack: React, Express, MongoDB, Node

### MANALYZE(MANAGE & ANALYZE)

Oct. 2019 to Nov. 2019

An app that helps small business to better manage their business by providing analytics

Tools: React.js, rails, bizchart, ant design

### INTERVIEW SCHEDULER

Sept. 2019 to Oct. 2019

A simple app that allows students to book, cancel and edit appointments

Tools: React.js, storybook, cypress

### TWEETER

Sept. 2019 to Oct. 2019

A simple, single-page Twitter clone

Tools: Express, jQuery, Ajax

### TINYAPP

Aug. 2019 to Sept. 2019

A full-stack web application built with Node and Express that allows users to shorten long URLs.

Tools: Node.js, Express, EJS, bcrypt, body-parser, cookie-session

### JOBGET CHALLENGE

Dec. 2019 to Jan. 2020

A simple search bar that users can enter the job title and city name to search for related jobs available in the market. There are also filter functions based on job posted date and location.

## EDUCATION

### Lighthouse Labs

Aug. 2019 to Nov. 2019

FullStack Web Development Diploma

### Simon Fraser University

2009 to 2013

Bachelor's degree in Economics

## EMPLOYMENT

### FLIR INTEGRATE IMAGE SOLUTION(WORLD'S LEADING HD CAMERAS MANUFACTURING COMPANY)

Richmond, BC

Production Team Lead

Dec. 2013 to Current

1. Develop plans to deploy proper manpower to achieve the daily targets
2. Responsible for training employees
3. Able to learn and work long hours to achieve goals
4. Able to work and improve as a team
5. Could quickly adopt different working environment and have experiences in different teams and fields (Engineering, Testing, and SAP team)
6. Strong problem-solving ability (as I supervise in the PM shift where support is relatively limited, I often have to solve the technical problems myself for the team)
7. Ambitious to learn and achieve exceptional outcomes.
8. Achieve the highest ranking for employee performance for 7 years consecutively under different departments.
